*Learning 4 Life-Our curriculum prepares students to enhance their self-confidence, motivation, and self-esteem. The program uses age-appropriate, grade-specific lesson plans to give youth skills and information that will help them make positive decisions for themselves, their families, and their futures.

**Enrichment-is designed to provide above and beyond extension opportunities for students to enhance skills and foster personal growth. (Example offerings: Creative Writing, PBL Math applications, test preparation/skills, novel and/or short story study, technology, and various virtual elective courses.
